## THE GAME

WIN YOUR BONU\$

### There's plenty of opportunity, it's yours to be won!

Earn bonuses as high as \$350 USD per month!

Achieve your targets and win 1% of the monthly revenue of each property. Ranging between \$25 and \$75 per property, per month!

Exceed your target and win 2% of the monthly revenue of each property. per month! Ranging between \$90 and \$140 per property, per month!

#### How it works.

- 1. Use the 'Revenue and Calendar management techniques' to fill the calendars with great bookings, for a high price with lovely guests and you'll achieve your bonuses.
- 2. I have set the bonuses to a realistic target, so there is a good chance you will win each month. The better you are at playing **THE GAME** the more you'll win each month.
- 3. You need to keep the 'MINI MAINFRAME' and 'OCCUPANCY' files up to date, so that we can keep score.

#### THE SCORE!

To keep an eye on the score we have a google sheets file which automatically updates each month.
